Compass Therapy not only bridges the gap between psychology and Christianity, but makes sense of personality disorders as never before, delivering the Human Nature Compass and the Self Compass growth tools for immediate application by therapists, pastoral counselors, and clinical chaplains. Dr. Ray Anderson, Fuller Seminary's Senior Professor of Theology and Ministry, writes: "I am not aware of any other book that succeeds as well as this one in providing both professional therapists as well as Christian counselors with a theoretical and practical model that combines psychology and theology in an integrated way. It has a profound simplicity that covers a wide range of personality disorders. Readers will say, 'Now I see why typical patterns of dysfunctional and disruptive behavior have a common root but also a specific cause.' Put it on top of your reading list!"

Accompanied by a ragtag crew of mercenaries and under the command of Miranda, a captain as bloodthirsty as she is alluring, Rose discovers the hard way that even the best sense of direction won't be enough to keep her alive if she can't learn to navigate something far more dangerous than the turbulent seas. Aboard the mercenary ship, Man o' War, Rose learns quickly that trusting the wrong person can get you killed—and Miranda's crew have no intention of making things easy for her—especially Miranda's trusted first mate, Orca, who is as stubborn as she is brutal.

AN INTERNATIONAL BESTSELLER “The Values Compass takes us into the hearts, minds, and traditions of the cultures and people of the world. It demonstrates how interconnected we are and how the divisions that exist between us stem from acting with narrow self-interest rather than concern for the good of our human family. I hope that the book will contribute to making our world a happier place.”
—THE DALAI LAMA Every day we make decisions based on what we believe in: values that define the ambitions we set, the choices we make, and the relationships we choose. In *The Values Compass*, Dr. Mandeep Rai shows how the countries of the world epitomize the power of values, provide an ideal guide to help us understand our own, and teach us important lessons about success. From Moroccan compromise to Armenian survival and American entrepreneurship, *The Values Compass* shows how we can incorporate the values that animate nations into our own lives—seeing ourselves through the eyes of the world, and shedding new light on the opportunities and challenges that define us. The result is an insightful and readable collection that helps us reflect on the values that matter most, last longest, and have the greatest power to create change.

In this groundbreaking work, author John Giannini offers an in-depth and often philosophical and autobiographical exploration of psychological type that seeks to reconcile type and archetype in Jung's original and subsequent works. Developing the larger implications of the functional couplings is one of Giannini's main objectives in *Compass of the Soul*. He posits that the couplings are the four archetypal modalities through which the Soul perceives and judges the outer and the inner worlds. These couplings, he writes, "constitute the four directions of the type mandala, or, borrowing Jung's term, the *Compass of the Soul*."
