Manual of Singing Voice Rehabilitation: A Practical Approach to Vocal Health and Wellness provides speech-language pathologists and singing teachers with the tools to lay the foundation for working with singers who have voice injuries. Singing voice rehabilitation is a hybrid profession that represents a very specific amalgam of voice pedagogy, voice pathology, and voice science. Becoming a singing voice rehabilitation specialist requires in-depth training and thorough preparation across these fields. This text presents a conceptual and practical basis for interacting with singers in an effective and supportive way, identifying factors to address, structuring singing voice rehabilitation sessions, and ensuring that singers are getting adequate exercise while allowing their injuries to heal, as well as resources and materials to provide to singers to optimize the outcome of their rehabilitation. Each chapter exposes readers to important concepts of singing voice rehabilitation and the elements that need to be addressed in the singing voice rehabilitation process, which include medical factors, emotional factors, vocal hygiene, vocal pacing, and vocal coordination and
