The Spread of Nuclear Weapons and International Conflict ...

Most people believe that the world will become a more dangerous one as nuclear weapons spread. The chances that nuclear weapons will be fired in anger or accidentally exploded in a way that prompts a nuclear exchange are finite, though unknown. Those chances increase as the number of nuclear states increase. More is therefore worse.

Nuclear proliferation - Wikipedia

Nuclear testing at Bikini Atoll consisted of the detonation of 23 nuclear weapons by the United States between 1946 and 1958 on Bikini Atoll in the Marshall Islands. Tests occurred at seven test sites on the reef itself, on the sea, in the air, and underwater. The test weapons produced a combined fission yield of 42.2 Mt of explosive power.. The United States was engaged in a Cold War nuclear ...
