The third day the frost was a great book. Very suspenseful couldn't put it down. I finished the book in one day and the whole series in less than a week. Not much of a reader but these books I would recommend to anybody. The only thing I didn't like as they change the narrator on the last two books of the Ellie chronicles.

The Australian YA adventure trilogy “comes to a thrill-a-minute conclusion as the teen heroes continue their guerrilla tactics against totalitarian foes” (Publishers Weekly). It's been nearly six months since Australia was invaded and Ellie's life changed forever. Once normal teenagers, she and six of her friends are now trapped in a war zone where every moment is a struggle for survival. Living in the woods to evade capture, Ellie has become an expert in fear, hunger, sickness—and improvised explosives. Ellie and her friends are learning to fight back, attacking the army that stole their land, abducted their families, and destroyed their future. But to wage a war, they

must strike their enemy where it hurts—and risk everything they hold dear. Concluding the story that began in *Tomorrow, When the War Began* and *The Dead of Night*, John Marsden “offers an unflinching look at living in war-torn Australia” (Kirkus Reviews).

I am Meredith Gentry, princess and heir apparent to the throne in the realm of faerie, onetime private investigator in the mortal world. To be crowned queen, I must first continue the royal bloodline and give birth to an heir of my own. If I fail, my aunt, Queen Andais, will be free to do what she most desires: install her twisted son, Cel, as monarch . . .

and kill me. My royal guards surround me, and my best loved—my Darkness and my Killing Frost—are always beside me, sworn to protect and make love to me. But still the threat grows greater. For despite all my carnal efforts, I remain childless, while the machinations of my sinister, sadistic Queen and her confederates remain tireless. So my bodyguards and I have slipped back into Los Angeles, hoping to outrun the gathering shadows of court intrigue. But even exile isn't enough to escape the grasp of those with dark designs. Now King Taranis, powerful and vainglorious ruler of faerie's Seelie Court, has leveled accusations against my noble guards of a heinous crime—and

has gone so far as to ask the mortal authorities to prosecute. If he succeeds, my men face extradition to faerie and the hideous penalties that await them there. But I know that Taranis's charges are baseless, and I sense that his true target is me. He tried to kill me when I was a child. Now I fear his intentions are far more terrifying.

Now in hardcover, the fourteenth novel of the Hugo-nominated, New York Times-bestselling Toby Daye urban fantasy series When October is informed that Simon Torquill—legally her father, due to Faerie's archaic marriage traditions—must be invited to her wedding or risk the ceremony throwing the Kingdom in the Mists

But five months later the war is not over, the nightmares continue, and there are two compelling reasons for them to return: a planned sabotage of the air base in Wirrawee and, most important, the families they left behind. In this episode of the tale begun in Tomorrow, When the War Began and continued in The Dead of Night and A Killing Frost, John Marsden takes us back to Hell, the outpost for a group of teens in a war-ravaged country.
