Tutorials in Introductory Physics is a set of instructional materials intended to supplement the lectures and textbook of a standard introductory physics course. The emphasis in the tutorials is on the development of important physical concepts and scientific reasoning skills, not on solving the standard quantitative problems found in traditional textbooks.

Collaborative learning—Intended to be used in a small-group environment of three to four students. Each topic includes a sequence of worksheets and assignments: Pretests—Short, free-response qualitative questions that test understanding of basic physics concepts. These are usually administered after material has been covered in lecture and prior to the tutorial.
