Light is as important as colour in creating the right effect, whether on a palette or on a computer. Whether you 're an animator, painter, photographer or illustrator, you need to know how to harness light in your work to create the right effect. *Light for Visual Artists* is the first and only book that explores the way light can be used to create realistic and fantastical effects in a wide range of media. Illustrator Richard Yot, known for his work in film as a lighting artist and stylised 3D illustrations, takes you through the fundamental properties of natural and artificial light, shadows, the interaction of light on different types of surfaces, reflections, as well as transparency, translucency and the effects of light on colour. Richard also explores how to observe the effects of light to create realistic images, and the creative use of light in composition and design for creating moods or setting a scene. This second edition has been updated with revised photos and artwork, as well as 15 practical exercises and new online video material. Packed with diagrams and illustrations, as well as computer game and film stills, *Light for Visual Artists* is an invaluable resource for animators, digital illustrators, painters, photographers and artists working in any medium.

Based on over 30 years of successful teaching experience in this course, Robert Pagano's introductory text takes an intuitive, concepts-based approach to descriptive and inferential statistics. understanding. One of the hallmarks of this text is the positive feedback from students -- even students who are not mathematically inclined praise the text for its clarity, detailed presentation, and use of humor to help make concepts accessible and memorable. Thorough explanations precede the introduction of every formula, and the exercises that immediately follow include a step-by-step model that lets students compare their work against fully solved examples. This combination makes the text perfect for students taking their first statistics course in psychology or other social and behavioral sciences.
