earns him a living but could also be his downfall. And Jamie learns to balance the benefits of t'ai chi in his search for health and happiness.

Cambridge English Readers Is An Exciting New Series Of Original Fiction, Specially Written For Learners Of English. Graded Into Six Levels From Elementary To Advanced The Stories In This Series Provide Easy And Enjoyable Reading On A Wide Range Of Contemporary Topics And Themes. Each Of These Highly Entertaining Stories Centres Around One Of The Five Senses. We Meet Arlo, Who Will Stop At Nothing To Get Silence, Gopal Who Uses Smell To Protect The Memory Of His Sister, Kathy Whose Blindness Is Her Power, David Whose Tongue Is His Fortune, And Jamie Who Overdoes His Search For Physical Strength.

Focusing on a wide range of linguistic structures, the articles in this volume explore the explanatory potential of two of the most influential cognitive-linguistic theories, conceptual metaphor and metonymy theory and conceptual blending theory. Whether enthusiastic or critical in their stance, the contributors seek to enhance our understanding of how conventional as well as creative ways of thinking influence our language and vice versa.

Award-winning original fiction for learners of English. At seven levels, from Starter to Advanced, this impressive selection of carefully graded readers offers exciting reading for every student's capabilities. Five stories about the senses: Arlo hates noise and has a plan to bring the world silence. Gopal uses smell to protect the memory of his sister. Journalist Kathy uses her blindness to get a clear picture of human characters. Daniel has a tongue that earns him a living but could also be his downfall. And Jamie learns to balance the benefits of t'ai chi in his search for health and happiness. 2 Audio Cassettes with complete text recordings from the book.

This book brings together contributions from scholars from Europe and the United States to honor the theological work of Antje Jackelén, the first female Archbishop of the Church of Sweden. In Archbishop Antje Jackelén's installation homily, she identifies the strength of the Church as a "global network of prayer threads." This book is an honorary and celebratory volume providing a "global network of prayerful essays" by contributors from a variety of academic disciplines to creatively engage, reflect, and illuminate the theological work of Archbishop Jackelén. Prior to her tenure in the Church of Sweden as Bishop of the Diocese of Lund and now the Archbishop of the Church of Sweden, Jackelén served as professor of Systematic Theology, Director of the Zygon Center and President of European Society for the Study of Science and Religion (ESSSAT). While each essay intentionally embraces the theological and ministerial work of Jackelén during her academic tenure, they also venture into areas as diverse as climate change, media studies, human uniqueness, hermeneutics, time, ethics, Christian theological tradition and history, traumatology, politics and society. As the first diverse explication of the theological thinking of Archbishop Jackelén by her theological colleagues, this text provides scholars with an expansion of the scope of Archbishop Jackelén's theological thinking and initiates laity into the impact of Jackelén thinking that combines with grace and precision the traditions of the Church, the challenges and gifts of the sciences, and the needs and longings of society and the world.

In 1997, writer Patricia Stacey and her husband Cliff learned that their six-month-old son Walker might never walk or talk, or even hear or see. Unwilling to accept this grim prediction, they embarked on a five-year odyssey that took them into alternative medicine, the newest brain research, and toward a new and innovative understanding of autism. Finally their search led them to pioneering developmental psychiatrist Stanley Greenspan who helped them save their son and bring him into full contact with the world. This enthralling memoir, at once heart wrenching and hopeful, takes the reader into the life of one remarkable family willing to do anything to give their son a rich and emotionally full life. We stand witness as they struggle to elicit the first sign that Walker is connecting with them, and share in their fears, struggles, tiny victories, and eventual triumphs. *The Boy Who Loved Windows* is compelling and inspiring reading for parents and professionals who care for children with autism and other special needs. The book is also a stunning literary debut, of interest to anyone who cares about the lives of children and the passion of families who, against huge odds, put these children first.

'The body is a house of many windows: there we all sit, showing ourselves and crying on the passers-by to come and love us.' Robert Louis Stevenson Nick hates it when people call him a genius. Sure, he's going to Cambridge University aged 15, but he says that's just because he works hard. And, secretly, he only works hard to get some kind of attention from his workaholic father. Not that his strategy is working. When he arrives at Cambridge, he finds the work hard and socialising even harder. Until, that is, he starts to cox for the college rowing crew and all hell breaks loose...

The Cambridge Handbook of Consciousness is the first of its kind in the field, and its appearance marks a unique time in the history of intellectual inquiry on the topic. After decades during which consciousness was considered beyond the scope of legitimate scientific investigation, consciousness re-emerged as a popular focus of research towards the end of the last century, and it has remained so for nearly 20 years. There are now so many different

lines of investigation on consciousness that the time has come when the field may finally benefit from a book that pulls them together and, by juxtaposing them, provides a comprehensive survey of this exciting field. An authoritative desk reference, which will also be suitable as an advanced textbook.
