How to Winterize Your Mercruiser (with Pictures) - wikiHow

Discount Inboard Marine wants to show you how to winterize your inboard! Here are the steps: Be sure your gas tank is full to keep out condensation and that ...

How To Winterize An Inboard Engine - YouTube

Many popular Mercruiser sterndrive and inboard engines use a closed cooling system that adds many years to the engine's life but requires a bit more care than open systems. Winterizing time is the perfect opportunity to take care of the closed cooling system, helping you ensure a trouble-free boating season next year. Step 1

How to Winterize a Closed System in a Mercruiser | It ...

If you've got an inboard or a sterndrive (inboard/outboard) boat motor, then winterizing is an absolute must-do. This process prevents gunk from building up, keeps condensation out of the fuel tank and just overall keeps your engine healthy. I've already covered winterizing pontoon boats, which usually have outboard motors.

How to Fully Winterize Inboard Boat Motors in 4 Steps ...

Adding Antifreeze and Fogging Oil to an Inboard engine. The procedure is a little different for an inboard power plant. Warm the engine up to operating temperature, just like with a sterndrive. Instead of using a winterizing kit, you'll need a five-gallon bucket, and enough antifreeze for your engine and related plumbing (at least two gallons).

Winterizing your Gas Inboard or Sterndrive | West Marine

Step by Step "How To" instructions for winterizing a Mercruiser 5.0L MPI Marine Engine and Alpha Sterndrive. This includes fully preparing for longterm cold ...

Winterizing a Mercruiser 5.0L MPI Marine Engine and Alpha ...

Add fuel stabilizer to the tank and run the engine so the treatment circulates. Shut it off and let it cool. Next, "fog" the engine from a six-gallon remote tank. Add five gallons of gas, two quarts of TC-W3 two-stroke oil and five ounces of fuel stabilizer.

Winterizing Freshwater-Cooled Engines | Boating Magazine

You must winterize your MerCruiser 4.3L V6 before storing it. The engine sucks water up from the lake through the impeller to cool the engine. This water does not automatically drain out of the engine. Because water expands when it freezes, it's imperative to drain the water from the engine. The carburetor also needs special attention.

How to Winterize the MerCruiser 4.3L V6 | It Still Runs

Before putting your boat away for the winter, you must first winterize the motor. Your Mercruiser 3.0 uses the water in the lake to cool the engine while boating. This water stays inside the engine. Failure to remove the water will cause freezing. As the water freezes, it expands. This will cause the engine block to crack.

How to Winterize a Mercruiser 3.0 | It Still Runs

Manufacturers of outboard motors and MerCruiser inboard engines, with over 4000 dealers in the United States.

Storage and Winterization | Mercury Marine

To do a complete winterization, you MUST be able to run the engine and bring it up to operating temperature. To do this, your boat must be in the water or be attached to a water supply via a hose and suitable adaptor that will allow an uninterrupted supply of water to the engine. STEP 2

HOW TO WINTERIZE YOUR INBOARD MARINE ENGINE FOR WINTER ...

A step by step guide to winterizing a 5.7 V8 MerCruser with the CAMCO Inboard/Outboard Winterizing Kit, available from West Marine, same concept applies to m...

How to Winterize an I/O Boat using Inboard/Outboard Kit ...

For direct fuel injected (DFI) two-stroke engines such as Mercury OptiMax models, instead of using fogging oil, squirt one ounce of DFI outboard oil into each cylinder through the spark plug hole. A small oil can with a long flexible neck works well for this task.

Mercury Dockline | How to Winterize Your Outboard ...

Winterizing Mercury Inboard Engine Follow the directions for winterization and fuel stabilization in your engine owner's manual. Some people prefer to "fog" the engine. With the engine running at a high idle (with a water hose hooked up for cooling of course), slowly pour a quart of Marvel Mystery Oil down the throat of the carburetor.
